Each materials labeled	20	20
Materials Schedule – complete: 13 materials	60	60
Total	200	200

Total for Project 400/ 400 pts. = 100 % Grade: A

Sandy,

I love that you took your inspiration for this project from your sister-in-law's artwork and from your sustainable materials class. You selected truly beautiful materials made all the more exciting by your bold color choices and commitment to sustainability. (Even your presentation boards were recycled! Way to go!) I was amazed that you found a wood floor with a 25 year warranty (I want one!) and I loved the Crystal cabinetry from Green Depot. Beautiful color palette, nice use of moulding to add interest to the space, and hurrah for color on the ceiling! You really went above and beyond on this assignment, providing far more than the 13 required finishes. You should be very proud of your work! I've enjoyed having you in my class this term, and hope our paths cross again. ☺
